EDUCATION

Anil Neerukonda Institue of Technology and Sciences,Visakhapatnam

October 2023 - Present

Bachelor Of Technology, Computer Science and Engineering

CGPA - 8.90

Sri Chaitanya Junior College, Visakhapatnam

June 2021 - May 2023

MPC

Score: 977/1000

SKILLS AND PROFICIENCIES

Languages: Java (Primary), Python,C

Frontend: React, HTML, CSS, Javascript

Backend: Spring Framework, Spring Boot, Spring Data JPA, REST APIs, Spring Security, JWT Authentication, Maven

Infra & Tools:Git, GitHub, Postman, Docker, Docker Compose

Databases:PostgreSql, H2, MySQL - Indexing, Normalization

CS Fundamentals: DSA, OOP, DBMS, Operating Systems, Computer Networks, Collections Framework, Multithreading, Software Design, Synchronization

Interests: Backend Development, System Design

Soft Skills: Problem Solving, Team Collaboration, Time Management

WORK EXPERIENCE

Vault Of Codes

May 2025 – June 2025

Internship

Virtual

- Developed responsive web applications using HTML, CSS, JavaScript, and modern development practices, focusing on performance, accessibility.
- Implemented backend functionality with REST APIs, server-side validation, and database integration to build reliable and maintainable application features.
- Applied software engineering practices including Git version control, debugging, testing, deployment, and optimization throughout the development lifecycle.

PROJECTS

Full-Stack E-Commerce Platform | React.js, Java, Spring Boot, PostgreSQL, REST APIs

2026

- Developing a full-stack e-commerce platform featuring user authentication, product catalog management, shopping cart functionality, and order processing workflows.
- Building RESTful backend services and relational database models to manage users, products, orders, and transaction data efficiently.
- Applying secure authentication, input validation, exception handling, and database query optimization to improve application reliability and scalability.

Secure Image Steganography System | Java, Cryptography, Image Processing

2026

- Built an image steganography application to securely hide and extract confidential messages inside images using Least Significant Bit (LSB) encoding techniques.
- Implemented pixel-level image processing, encryption-based data protection, and optimized encoding/decoding algorithms to ensure secure message transmission.

Student-Management-System | Java, Spring Boot, PostgreSQL, Docker

2026

- Developed a RESTful student management system to manage student records and academic information using Spring Boot and PostgreSQL.
- Implemented CRUD APIs with Spring Data JPA, documented endpoints using Swagger UI, validated API workflows through Postman testing, and containerized the application using Docker for streamlined deployment.

ACHIEVEMENTS

- Solved **350+ coding problems** across LeetCode and GeeksforGeeks, strengthening problem-solving, data structures, and algorithmic thinking skills.
- HackerRank:** Earned 3 skill badges demonstrating proficiency in programming fundamentals and problem-solving.
- Secured **2nd place in school-level Abacus and Skating competitions**, showcasing discipline, focus, and consistency from an early age.

CERTIFICATIONS

- Anthropic Claude:** Claude 101, Claude Code 101
- GeeksforGeeks:** Java Programming Certification
- MathWorks:** MATLAB Onramp Certification
- Kaggle:** Machine Learning / Data Science Certification
- AWS:** AWS Cloud 101 Certification
